Sec. 85. And be it further enacted, That on the first day of October next, and on the first day of each quarter thereafter, an account shall be made and rendered to the Commissioner of Internal Revenue by all insurance companies, or their agents, or associations or individuals making insurance, or [illegible], including agents of all foreign insurance companies, which shall contain a true and faithful account of the insurance made, renewed, or continued, or indorsed upon any open policy by all such companies or their agents, or associations, or individuals during the preceding quarter, setting forth the sum insured and the gross amount received, and of the duties accruing thereon under this act; and there shall be annexed to and delivered with every such quarterly account an affidavit, in the form to be prescribed by the Commissioner of Internal Revenue made by one of the officers of said company or association, or individual, or by the agent in the case of a foreign company, that the statements in said accounts are in all respects just and true; and such quarterly accounts shall be made to the Commissioner of Internal Revenue, within thirty days after the expiration of the quarter for which such account shall be made up, and upon rendering such account with such affidavit, as aforesaid, thereto annexed, the amount of the duties due on such quarterly accounts shall be paid to the Commissioner of Internal Revenue; and for every default in the delivery of such quarterly account, or affidavit annexed thereto, or in the payment of the duties due by such quarterly account, the company, or agent, or association, or individual making such default shall forfeit, in addition to such duty, the sum of [illegible] dollars.

TUESDAY MORNING OCT 21 1862

The Oath Prescribed by Law

Congress prescribed in an Act, dated July 2d, the following oath for each person as enter into the civil, military or naval service of the United States. This oath they must file before they are entitled to draw any moneys from the Treasury of the United States. The oath proposed by a majority of the two Houses of the Oregon Legislature was not half as stringent.

"I, A B, do solemnly swear (or affirm) that I have never voluntarily borne arms against the United States since I have been a citizen thereof, *that I have voluntarily given no aid, countenance, counsel or encouragement to persons engaged in armed hostility thereto*: that I have neither sought nor accepted nor attempted to exercise the functions of any office whatever under any authority or pretended authority in hostility to the United States: that I have not yielded voluntary support to any pretended Government authority, Power or Constitution within the United States hostile or inimical thereto. And I do further swear (or affirm) that to the best of my knowledge and ability I will support and defend the Constitution of the United States against all enemies foreign or domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter, so help me God."

To oppose our Government in its efforts to crush the rebellion—to give encouragement to rebellion by approving of the conduct of the rebels—to give aid and counsel to the rebellion by denouncing our Government and glorifying that of Jeff Davis—are points clearly prohibited in this oath.

SUFFERING IMMIGRANTS.—The boats each day bring down large numbers of immigrants from the Dalles, many of whom are entirely destitute of means, and are in a suffering condition. We believe it to be the duty of our citizens to look to their present wants and provide them with shelter. Many of these people have been referred to our Acting Mayor, Mr. McCoy, and for the last day or two his office has been thronged with sufferers, begging for food and clothing. The Mayor has done what he could for them out of his private purse, but has no authority to do anything on the part of the city, and has been obliged to turn many away. We suggest that the City Council appropriate a sum of money and place it in the hands of the Mayor, to form the nucleus of a fund for the relief of the immigrants, and that our generous citizens contribute to that fund in such sums as they feel able to give. We believe their charity can not better be bestowed. Mayor McCoy expresses his willingness to receive contributions and disburse them, and we are sure he will distribute the same judiciously. Let our people give freely—anything, clothing, (second hand would be thankfully received) and provisions or money. Our people have never been niggardly in such matters, and we hope they will not be now. The Mayor can always be found at his office, in the Council Room.

A PETRIFIED MAN.—According to the *Territorial Enterprise*, a petrified man was found some time ago in the mountains south of Gravelly Ford. Every limb and feature of the stony mummy was perfect, not even excepting the left leg, which had evidently been a wooden one during the life time of the owner, which life time, by the way, came to a close about a century ago in the opinion of a savan who has examined the defunct. The *Enterprise* adds:

"The people of the neighborhood volunteered to bury the poor unfortunate, and were even anxious to do so, but it was discovered when they attempted to remove him that the water which had dripped upon him for ages from the crag above had coursed down his back and deposited a limestone sediment under him, which had glued him to the bedrock upon which he sat as with a cement of adamant, and Judge S. refused to allow the charitable citizens to blast him from his position."

Poor fellow! he should be taken care of. It is evidently the body of some miner who was out prospecting for gold four or five hundred years ago, and finding a rich spot just "froze to it." The Nevada papers publish very tough stories occasionally.

CONTRIBUTIONS TO THE U. S. SANITARY COMMISSION FUND.—Amount before acknowledged, $12,217 50.

C W Burrage (additional) $10; from Oregon City, (additional) 111; from Vancouver (additional) 33 50, as follows: J Turnbull 10, W Turnbull, Thomas Turnbull, Judge Wyche, Mrs Wyche 5 each, J W Miles 2 50, E L Dole 1.

From Fisher's Landing, W. T., collected by Miss Hannah C Simmons $23 75, as follows: W M Simmons, A J Simmons, H C Simmons, E Burke, A R Burke, S D Maxon, H M Knapp, S W Fisher, W J D [illegible] 2 each, J S Simmons, H C Simmons, M F Simmons, W Abbott 1 each; D W Simmons, S W Simmons, E L Burke, 50 cents each; E Goodwin, 25 cents. Three citizens of Portland, 7 50. Total—$12,40[illegible]

A. HOLBROOK.

WAR COUNCIL.—The Snake, Bannock and a portion of the disaffected Nez Perces Indians are now holding a grand Council at Fort Hall, ostensibly to consider the propriety of a war with the Blackfeet, but it is the opinion of many that it is a combination against the whites.—*Golden Age.*

Letter from the Dalles

[illegible]

And this [illegible] the [illegible] the [illegible] home they left [illegible] Capt Hask [illegible] has been consummated. The [illegible] has been made to produce [illegible] than were required by the [illegible] of the garrison, and as [illegible] Under [illegible] officers, the heavy amount of [illegible] has been overhauled and [illegible] excellent sets of [illegible] of far more value [illegible] from San Francisco. [illegible] of old wagons [illegible] plains, abundant [illegible] pieces and with some repairs [illegible] durable wagons were brought out [illegible] two months ago directions were given to prepare stables for a company [illegible] during the coming winter—the plans were made—estimates presented—all of which were [illegible] material and labor outside [illegible] could not be had to finish the work [illegible] this emergency the officers had repaired [illegible] saw mill on the reservation [illegible] the timber [illegible] hauled it on the stable site [illegible] the building and [illegible] prepared it for sawing. The timber was worked into lumber in sufficient quantities to complete the building. The frame of the stable is now up, placed upon an excellent stone foundation, and, had the Company remained at the fort three weeks longer the building would have been entirely finished with little expense to Government, [illegible] nails and the necessary iron work. To us outsiders, the garrison seems to have been something like a self-paying institution under the administration of Capt. Fitch and his subalterns—saving more money to the Government than the amount of their pay.

Other facts are known to our citizens. There has not been a single complaint made to Capt. Fitch of the irregularities of soldiers in town, nor has there been complaint made by farmers adjacent to the garrison of any petty pilfering of soldiers. And another remarkable fact I may state (having it from good authority), weeks and weeks have passed without there being a single occupant of the guard house from Capt. Fitch's company.

Are these not facts which give evidence that we have cause to regret that the exigencies of the service require the removal of this company, with its officers, from the Dalles? May we look upon their like again.

There are some speculations growing out of the moving of the 4th California regiment at Benicia, which may be true or not true. We have ever regarded the abandonment of the overland expedition from California to Texas, as a grave mistake. Had an army of five thousand men been sent to Texas from California, as was intended a year since, the flag of the stars and stripes would now be flying all over that recusant State. Five thousand men would have formed a nucleus around which the Union men would have gathered, forming an invincible phalanx. It is not too late to retrieve the error. A large column of troops is well on the way there. A reinforcement could be sent in the Fall to join it. We have surmised that this will be done. The 4th regiment will make its mark in this war, give it opportunity. They desire to be in the field service.

Capt. Dowling's troops are now in quarters in the garrison. Capt. Fitch's Company will leave as soon as the quarter master has turned over the Government property to his successor, which will be done in a few days—so I am informed.

Lewiston Correspondence

LEWISTON, Oct 15th, 1862.

Editor Oregonian:

I have been a resident of this place about two months, and have been waiting very patiently for our Post Office to get under way so I could send for the OREGONIAN and have it come by one of Uncle Sam's pack trains at a less cost than fifty cents a number.

The Post Office opens in this place to-morrow. The mail will run once a week from here to Walla Walla. Times are rather dull here at present, although pack trains are still running, and there seems to be as much freight going to the mines as there was a month ago.

The snow is reported eight inches deep at Florence and two feet on the mountain this side.

Two men have been killed by the Indians about twelve miles above this place this week and there is a report in town this morning that three more were killed last night; but I do not think the report is reliable. One of the men killed was Titus, who formerly lived in Scott Valley, California. The citizens here are very much disappointed and discouraged in consequence of the Commissioners delaying a council with these Indians until next spring; we feel that something ought to be done immediately or a war will be the consequence. Part of the Indians are very much dissatisfied and want to fight the whites. Big Thunder says he can clean out the Agency and Lewiston. There is no doubt but what the Eagle of the Light and Big Thunder will fight if they do not get some satisfaction very soon in regard to the whites settling upon their country. I think the Commissioners appointed by the Government to hold a council with these Indians and try to make a treaty and a purchase of at least a part of their lands should at once commence their labor and get the Indians together in council, if it took them a month or six weeks to get them together and hold a council.

The delay until spring is a complete drawback to this place. If a treaty could be had with the Indians this fall and a purchase of part of their land, hundreds of [illegible] would at once be taken [illegible] would find us surpassed by as rich [illegible] there are on this coast.

You will please send my OREGONIAN to Lewiston. I [illegible] there are more who will take it when the mail gets to running and they see that the Post Office is not a failure.

SPECIAL DISPATCHES TO THE OREGONIAN.

LATER FROM THE EAST.

Dates to Oct. 15th.

LOUISVILLE, Oct 14.—The Memphis *Bulletin* says that the late Federal victory at Corinth has quieted all apprehension of an attack on Memphis, and believes it will revive all the Western towns and allow the Federal troops to open the Mississippi, and open the whole region to commerce with Memphis. All reports of fighting between Buell and Bragg since Wednesday last are untrue. The [illegible] here are [illegible] Bragg [illegible] Polk [illegible]

HARRISBURG, Oct 14.—The result of the election cannot be stated with any degree of certainty. Indications are [illegible] throughout the State.

PHILADELPHIA, Oct 15th.—Eighteen wards in this city give Mayor Henry (Union) [illegible] Campbell (Republican) probably defeated in the 4th ward by Hon McCall. [illegible] the election of [illegible] Congressional district.

NEWARK, N. J., Oct 15.—The city election resulted in a complete democratic triumph.

Eastern News

LOUISVILLE, Oct 12.—Further particulars of the fight at Perryville have been received. The Federal force engaged was 10,000; the rebel force was 65,000. The Federal loss was from 300 to 400 killed, 2,500 wounded, and 400 taken prisoners. The latter were paroled. The rebel loss was 1,000 killed, including one General not named, and fourteen Colonels and Lieutenant Colonels. This number is admitted by General Cheatham, Division Medical Director.

Gen Dumont is at Frankfort. Humphrey Marshall is reported to have left Lexington on Sunday last with his whole force. He is believed to have gone to Nicholasville.

CAIRO, Oct 11.—A special dispatch to the Mobile *Tribune* says that place will certainly be attacked by Farragut as soon as he gets ready for action, which may be looked for at any time.

The Galveston *News* reports that yellow fever had made its appearance in several towns in Texas. At Sabine Pass there had been twenty five deaths. Most of the people had fled from the place.

NEW YORK, Oct 11.—New Orleans papers of October 1st have been received.

The city continued remarkably healthy. Brigadier General Lewis G. Arnold, by order of General Butler, has assumed command of all the military forces at New Orleans and Algiers.

The *Picayune* of September 28th says the steamboat *Hercules* had been fired into while passing a plantation three miles below Bayou Goula, from a battery of four rifled cannon. Fifty shots were fired, killing one man. The boat escaped.

WASHINGTON, Oct 11.—Governor Evans of Colorado Territory is here in order to make arrangements for the protection of that Territory from Indian depredations, and for guarding the overland route by which supplies reach the Territory.

General Hooker's wound is healing very rapidly, but the surgeons have ordered him to remain quiet until the tendons of his foot are thoroughly freed from inflammation.

The *Herald's* Washington correspondent says: "The Government has come into possession of a letter from Beauregard to Bragg, containing a full criticism upon the campaign, a careful survey of the rebel resources and prospects, with an explanation of their programme. It clearly indicates that the rebel armies are much better off than the Federal authorities have hitherto believed."

NEW YORK, October 13.—The *Tribune's* Harper's Ferry letter, dated Oct 10th, says: Notwithstanding the apparent inaction, I believe peremptory orders have been received for one of the largest and most important movements of the war. Preparations are rapidly progressing. Within the next week or ten days the country will doubtless be gladdened with intelligence more grateful than the ancient record of "all quiet in the Army of the Potomac."

KANSAS CITY, (Mo.,) October 8.—There was a skirmish yesterday between a company of eighty men of the Fifth Missouri Cavalry and a guerrilla band, one hundred and forty in number, under Quantrell and Childs, near Sibley's Landing, resulting in the defeat of the rebels. We captured Colonel Childs. The Federals are still pursuing the rebels.

ST. LOUIS, Oct 12.—Business of all kinds was suspended yesterday, for the purpose of giving an opportunity for the enrolled militia of the district to turn out for review and inspection. Fifteen thousand soldiers were in line and made a fine appearance.

Foreign News.

The *Hibernia*, with Londonderry dates to the 3d, has arrived.

The principal journals, including the *Times*, compliment McClellan for vigorous and energetic movements.

It is fully expected in Paris that by the 1st of November the City of Mexico will be in the possession of the French.

It is rumored that England has pointed out to the French the necessity of evacuating Rome.

SAN FRANCISCO, Oct 15th.—A writer in the *Bulletin* to-night suggests that there is a well organized plan of Secessionists on foot to seize the Government property. He estimates 10,000 active rebels in California. The movement on foot is to establish a settlement in Sonora. It is a secession plan for a new republic. The active Secessionists refrained from voting at the last election to deceive the public as to their strength. The secret organization of rebels well known to General Doane and other prominent citizens, and an effort was made to enlist them in the enterprise.

BUCHANAN'S OPINION OF STEVENS' SPEECH.—Thaddeus Stevens was nominated for Congress in the Ninth District of Pennsylvania [illegible] weeks [illegible] and [illegible] mighty [illegible] speech [illegible] accepting the nomination [illegible] Buchanan took occasion to remark [illegible]

It is a pity that Mr Stevens made that speech, because it will be published in the Southern papers and the *Southern* [illegible] *against us than* [illegible]

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE DAILY OREGONIAN may be had at the Franklin Book Store, and at Charles Barrett's, Front street.

SERIOUSLY HURT.—We are informed that a man known as "American Bob" was badly injured at the race course yesterday, by being knocked down and run over by one of the horses. It appears that he owned the winning horse, and as they passed the stand on the stretch, he ran out in front of them waving his hat, and was struck by the hind-most horse. He is considered out of danger.

A SUGGESTION.—We suggest the idea of our amateur musicians giving a vocal and instrumental concert for the benefit of the [illegible] immigrants daily arriving in our city. They could not apply their talents to a more charitable or better purpose. Come, [illegible] who makes the first move in this [illegible]

BENEFIT OF COLUMBIAN 3's.—The Theatre was crowded last evening on this occasion. The performance passed off well, and was very creditable to Martin, the Wizard, and the other volunteer performers. We did not learn the amount of the proceeds, but we suppose that it is quite a handsome sum.

BEAUTIFY YOUR HOMES.—We know that [illegible] lady friends are devoted subjects of Queen Flora, and exhibit much taste in adorning their homes with beautiful and fragrant flowers. [illegible] APPEARANCE.—The firemen's torch [illegible] on last night was a very brilliant [illegible] one of the finest parades ever [illegible] in our city.

BEAUTY AND SIMPLICITY OF CONSTRUCTION
—AND—
Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order; should make a TIGHT LOCK-STITCH, alike on both sides of the material, and should sew any and all materials that can be sewed.

It should be able to use cotton, thread, or silk directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity, and without changing the tension. It should also be able to make the tension greater or less, on both the under and upper threads, and with uniformity; and should have a *straight* needle; curved ones being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer, should stitch, fell, run and gather; and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam, and commence sewing tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel-feed; no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw-driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side, or ravel.

DR. BAKER'S
PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oil and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases; If they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe the part affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea; it will take out all the inflammation and heal the sore in a short time.

THE TALENTS.

Have you read of the servant who hid in the earth
The talent his master had given,
When, by diligent use, to redouble its worth,
He ought to have faithfully striven.

My child, you have talents—God gave them to you,
And will surely require them again,
Take care not to waste them; if ever so few,
Let them not have been given in vain.

You have *speech*: Then remember to watch your words well,
And let them be gentle and kind—
It may seem a small matter, but no one can tell
The comfort a word leaves behind.

You have *time!* Every minute and hour of the day,
Is lent by your Father in Heaven.
Make haste to improve, ere it passes away,
The talent so graciously given.

You have *influence*, too, though it seems very small;
Yet, in greater or lesser degree,
You affect the improvement and comfort of all
With whom you may happen to be.

And the child, who in earnest endeavors to live
As an heir of eternity ought,
By his silent example a lesson may give,
Which by words he could never have taught.

Then consider the talents entrusted to you,
And may they be duly improved—
Let your service be hearty and free, as is due
From children so greatly beloved.

State Agricult'l Society—Premium Essay

Essay on Oregon—Its Resources, Capabilities and Advantages, and the Inducements it offers to Immigrants.

BY W. LAIR HILL.

(Continued.)

The soil of Western Oregon may be divided into four general classes, viz:

1st. A brown clay loam, of good quality, thinly timbered with oak, producing good grass, and affording fine stock range. It is found chiefly along the spurs of mountains or extended ranges of hills—never in the level prairie.

2d. A dark or black porous soil, formed by the admixture of vegetable mould with the clay loam just described. This soil occurs only in the valleys close by or between the mountains, and is unrivalled in productive power. Both of these classes are thirsty, and suffer whenever the summer drought is of very long duration.

3d. A grayish calcareous sandy loam of exceedingly fine quality, covered with a thick turf of grass, and admirably adapted to the cultivation of cereals, especially wheat, oats and barley. This class embraces five-sixths of the entire valley, including most of the prairie, and much of the oak-timbered land. It is little affected by drought, and, though not naturally porous, is pulverized with great facility, and is exceedingly mellow.

4th. A strictly alluvial soil, lying along the immediate banks of the river, and composed of sand, vegetable matter, and various decomposed earths, washed by the current from above. Most of this class of soil is overflowed in extraordinary freshets, which, however, never occur in the growing season of the year; and it is unexcelled in fertility.

The population of the Willamette Valley is about 30,000—scarcely one-tenth as great as it would be, if settled as densely as many of the States.

Portland, the chief city of the State, is situated in this valley; and though at a considerable distance from the ocean, is a seaport, and visited every week by ocean steamers, besides numerous sailing vessels. It is a growing place, and among all the cities on the Pacific Coast, is destined to be second only to San Francisco in size, as it already is in business. It is the commercial emporium of both Oregon and Washington.

Salem, the Capital and social metropolis of the State, is delightfully located, and is already a respectable city. Surrounded by a large and thriving district, it command an extensive inland trade, and is altogether a promising place.

Albany, Corvallis, and Eugene, still further up the river, are flourishing towns, and sustained by such districts as cannot fail to make them very important points, as the population of the State increases.

Oregon City, at the Falls, deserves notice chiefly on account of its water privileges. Here the Willamette River falls about forty-five feet; and being divided into numerous currents, running through rock-bound channels, it affords an excellent site for mills and manufactories. When Oregon shall become a Massachusetts, Oregon City will be its Lowell.

There are some other places which would demand notice in a more elaborate essay; but those mentioned are the most important.

Many small and very rich valleys lie along the seacoast, and will doubtless yet become valuable. Among them are the Tillamook, situated on a bay of the same name, the Siletz, the Yaquina on Yaquina Bay and River, the Coquille on Coquille River. The Coquille and Tillamook already contain settlements of some magnitude.

(To be continued.)

Variety.

The Crystal Palace of 1851, in Hyde Park, London, cost £80,000. The domes alone of the building for the exhibition of 1862 cost £60,000.

The chairman of a political meeting, seeing a rowdy who was raising his arm to throw a stale egg at him, bawled out: "Sir, your motion is out of order!"

A 68-pounder shell burst near an Irishman in one of the trenches. Pat coolly surveyed the ruins the fragments had made, and exclaimed, "Be jabers! thim's the fellows to soften the wax in a man's ear!"

A noted physician recently joined a "spiritualist" circle for the purpose of getting some communications from unknown regions. On receiving the usual signals, he inquired who it was that was addressing him. "One of your patients whom you killed," was the reply. The physician did not pursue the investigation any farther.

A pork butcher, be it respectfully said, is so far in advance of the medical knowledge of the age, inasmuch as he both kills and cures. Now it is rare indeed that a doctor can achieve more than one of those delicate operations successfully at a time; at all events there is no living proof of the two having ever been performed completely to the patient's satisfaction.

As daylight can be seen through very small holes, so little things will illustrate a man's character. Indeed, character consists of little acts, habitually and honorably performed: daily life being the quarry from which we build it up, and rough hew the habits which form it.

THERE is a great deal of vanity in some people's humility, a great deal of poverty in their wealth, and a great deal of insolence in their condescension.
